

2nd Teachers Training

Block- Majwa, Kachhwa

Date- 26th and 27th Oct 2018

We conducted teachers training at Kachhwa and did a review of previous topics. We were encouraged by the response of teachers. They even created teaching aids and were actively using them at tuition centres.

The teachers said that students were showing more interest through this way of learning.

Number of teachers attended were twenty-five.

The following topics were covered in this training:

Science	Types of plants ,terms used
Rhymes	Here we go round the Mango tree
English	Letters B,F,O,X
Grammar	Articles, Opposites, simple grammar
Spoken English	Simple conversation
G.K	States of India and Capitals
Bible	Deutr 6:5

Training started with prayer and Deutronym 6: 5 was discussed. Teachers shared their experiences joyfully. They said that students were enjoying and sharing with others what they had learned. There was a ripple effect of learning. We taught them about plants and terminology used. They learned a Rhyme on Good Habits. They were learning using natural things around them.

They learned “opposites” in English by acting them out. Simple conversations like asking Name, village and what they like, questioning in pairs and learning together.

We are planning for our next training meet **on Nov 23rd** to cover the training of the remaining **60 teachers**. We are using **U.P BOARD Syllabus** for **tution centres** and training them accordingly.
